This may have implications for any appointee who has acquired pension rights in a previous public service employment.

**Pension Abatement**

The Public Service Pensions (Single Scheme and Other Provisions) Act 2012 extended pension abatement so that a retiree's public service pension is liable to abatement on re-entering public service employment, even where the new employment is in a different area of the public service. However, if the appointee was previously employed in the Civil Service and awarded a pension under voluntary early retirement arrangements (other than the Incentivised Scheme of Early Retirement (ISER) or the Health Service Executive VER/VRS which render a person ineligible for the competition) the entitlement to payment of that pension will cease with effect from the date of reappointment.

**Ill-Health Retirement**

Please note that where an individual has retired from a Civil/Public Service body on the grounds of ill-health his/her pension from that employment may be subject to review in accordance with the rules of ill-health retirement within the pension scheme of that employment.

**Annual Superannuation Contribution (ASC)**

This appointment is subject to the ASC deduction as provided for under Part 4 of the Public Service Pay and Pensions Act 2017.
